

# Activity 2

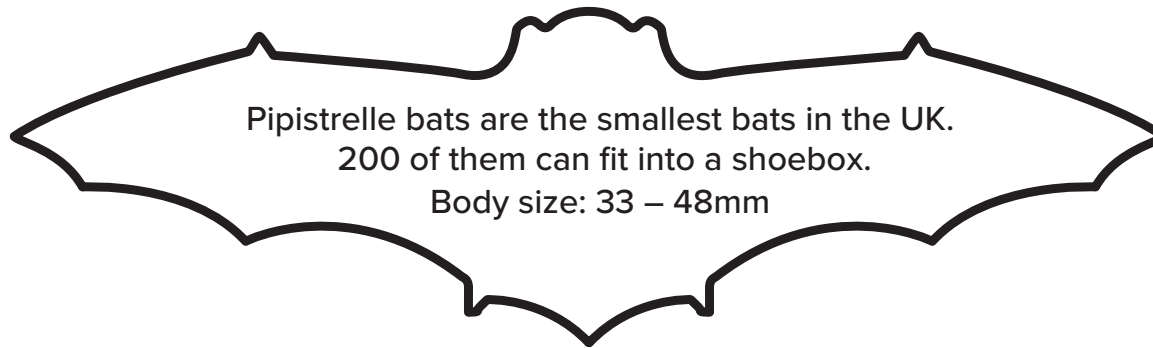

Year 3 Science: animals including humans

(1/2)

The Brown long-eared bats have exceptionally sensitive hearing and can hear a ladybird walking on a leaf.  
Body size\*: 37 – 52mm

Pipistrelle bats are the smallest bats in the UK.  
200 of them can fit into a shoebox.  
Body size: 33 – 48mm

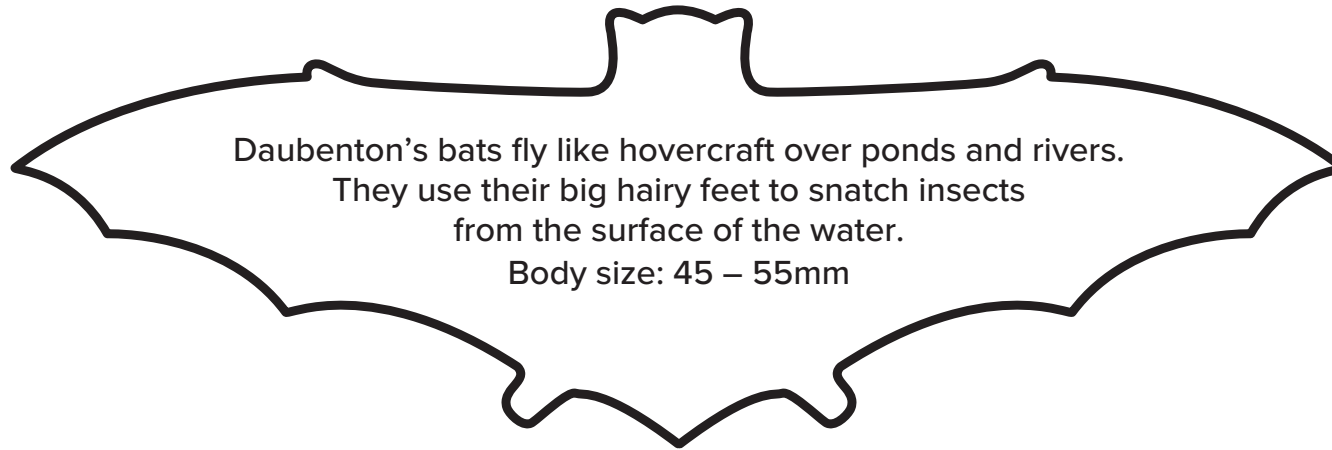

# Activity 2

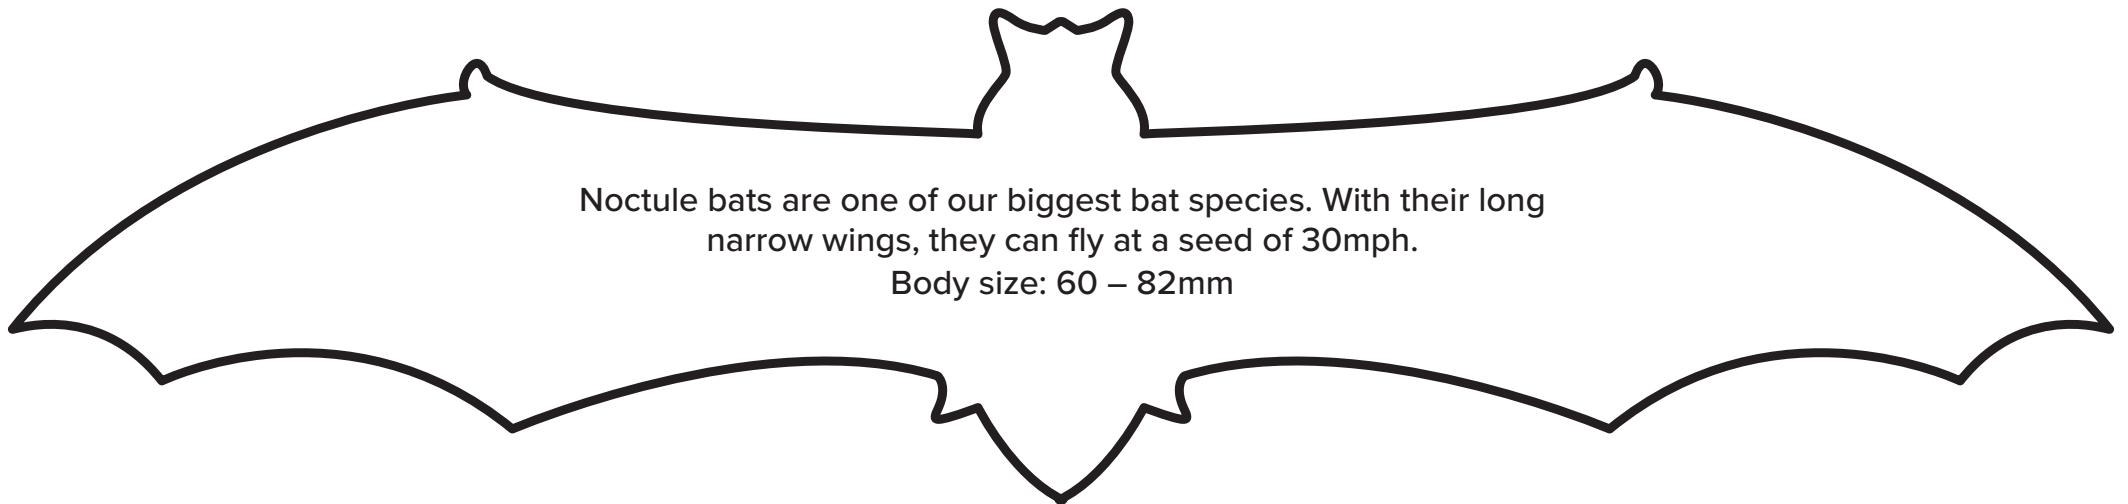

Year 3 Science: animals including humans

(2/2)

Daubenton's bats fly like hovercraft over ponds and rivers.  
They use their big hairy feet to snatch insects  
from the surface of the water.  
Body size: 45 – 55mm

Noctule bats are one of our biggest bat species. With their long  
narrow wings, they can fly at a speed of 30mph.  
Body size: 60 – 82mm
