

# Jersey Bat Rescue Form

JBG in partnership with JSPCA and New Era [www.jerseybatgroup.org](http://www.jerseybatgroup.org)

This form has been designed by the JBG to collect details of all grounded bats to assist the process of care for the bat and for research purposes. Please pass this form to the care provider with the bat. On completion, please send form to the JBG [enquiries@jerseybatgroup.org](mailto:enquiries@jerseybatgroup.org) or pass to the JBG volunteer releasing the bat.

Rescue No: \_\_\_\_-\_\_\_\_-\_\_\_\_/\_\_\_\_/\_\_\_\_-\_\_\_\_

Collector name and contact no.:

(Organisation-initial-YY/MM/DD-number)

Name of Finder		Date found:	
Finder's contact details		Location found (address or co-ordinates or what3 words)	
Circumstances of bat grounding		Location of roost	
Pups Date and time of return		Method and Outcome	

**Rabies risk assessment** (refer to PHE leaflet)

Has the bat been handled directly?

Any risk of bite/scratch/unobserved contact with child/or contact with blood or bat saliva?

Referred for medical advice?

**Is the bat alive?**

If dead please send bat and this form directly for EBLV surveillance, c/o Howard Davies Farm

I hereby sign care over to Jersey Bat Group / JSPCA / New Era : \_\_\_\_\_

**Privacy statement:**

The personal details collected on this form are collected for the purpose of future release of the bat, to enable the JBG to follow-up with those requiring further information on living with bats or those wishing to identify the species present in their area, and to ensure permission for the care and subsequent treatment of the bat(s) has been transferred to the agency collecting the bat.

Please tick below to all that apply

<input type="checkbox"/>	I would like to be kept informed about the bat and any release
<input type="checkbox"/>	I would like to know more about the bats around my home and I am happy for the bat Group to contact me
<input type="checkbox"/>	I understand records of bats and roosts may be recorded with the Jersey Biodiversity Centre as biological records.
